## LUMBER BARONS TRY TO IMPOSE COMPANY UNION ON LOGGERS TO HEAD OFF REAL ORGANIZATION

### Outfitting Of Old L.L. Tries to Fool New Lumberjacks

#### DAY STRIKE NOT NEEDED

Born out of the old L.L. company organization, and depending entirely for its support upon the companies of the lumber industry, the Industrial Employers Union, Inc. still persists in selling itself a genuine labor union. This is evident that the lumberjacks who are still paying off the L.L. used to furnish good to take careful note of. The old union should understand the situation without further comment.

The uneducated parent of the I.E.U. was formed to reduce the wages which the lumberjacks of the I.W.W. had raised during and immediately following the war. It was financed by the lumber barons to keep on the I.W.W. men when these went on strike.

The Why of Company Unions  
The L.L. was started AFTER the I.W.W. had made headway against the low-paying lumber companies in those bygone years. In the Clearwater district of Idaho neither the L.L. nor the promoters of the new I.E.U. (in existence since May) thought of higher wages and better conditions prior to 1928. The fact is, these promoters were not and ARE NOT interested in higher pay for the workers. Quite the contrary. It is only when these gentlemen see that the workers are getting into a real union that they begin themselves to start a counter-attraction. When they see that the workers insist on organizing they try to hand them an organization which the barons can control and then they have the gall to claim that such gains as have been obtained through the tireless efforts of the Websters are the fruits of their own striving, boot-licking, boss-fearing policies.

Making no mistake, lumberjacks, the I.E.U. Inc. is not in reality a labor union at all. As was pointed out in a recent issue of the Industrial Worker, the I.E.U. simply stepped into the place left vacant by the Loyal Legion of Loggers and Lumbermen, taking over its property and its function as a protector of the employers against the fighting, smart and file controlling I.W.W.

In one of the I.E.U. articles made it a point of the fact that its members are getting wages as high as those of other unions. Perhaps it is so, and if it is so what does it mean? Simply this: that they are sharing in benefits that they did not help fight for; they are enjoying the fruits of other people's labor and faithful service on many a picket line. Under these conditions it means hardly decent for the I.E.U. to brag that its members don't have to strike to get raises.

### Keeping Whore Others Out

When union workers strike and come of them less than their lives even

(Continued on page 4)

## Can Makers Enjoy Sit-Down Strike

TRADE. (FP) — Though the production of cars cannot be strictly classed as part of the automobile industry, workers employed by the American Car Co. are now working the same, that is, members. They have no contract covering the shop. For two days they had a chance to relax in the shop, stop to talk to people, play, sing and sit. Because they were on a sit-down strike the company fired one of their picket leaders. For inefficiency, they said. For union activity, they said.

Henry Ford's company got nothing out of American Car's sit-down and would go on the same. Ford said around the workers. The night after the sit-down. The gates open. Everybody had a good time.

## STRIKING GANDIES ARE BACK ON JOB

TACOMA, Wash. — The strike of Milwaukee Ry. extra gang number 108 has been transferred back to the job by a vote of the strikers. This action was taken when other gangs, considering that the time for an extensive strike was not opportune, declined to follow the example set by number 108. Delinquent sentences to report progress in the grand organization drive.

## Hollywood Sends Help For Spain

HOLLYWOOD (FP) — The studios bearing the names of 24 movie stars, directors and screen writers have left Hollywood for a transatlantic tour to New York on their way to loyalist Spain. Contributed by the Motion Picture Artists Association, the cars have painted on their sides such names as Frankfort, Betty Furness, Bob Hecht, Lewis Milstone, Kenneth Snerd, Gail Sondergaard, Herbert Blomart, Dudley Nichols, Gay Kerner, Stella Adler, Donald Ogden Stewart and 10 others who were most instrumental in raising funds for their purchase.

The cross-country tour of the automobiles will be accompanied by showings of the new film, "The Heart of Spain."

## Organized Scabbery Case May Go to the U. S. Supreme Court

AMBRIDGE, Pa. (FP) — The nine old men in black robes may have the final word on the unprecedented tangle of the labor situation at the Nail, Electric Products Corp. here. The Nail Brotherhood of Electrical Workers signed a closed shop contract during a C. I. O. strike and were recently won a labor board poll, 750 to 686. However, 150 ballots are the union and the Nail Brotherhood and Radio Workers' (CWO) charges company coercion. The A. F. of L. union, angered by the labor board's action in voiding the contract pending the poll, arranged the introduction of testing the entire case regardless of the final labor board decision.

## No Right to Strike Says Farley of Men In Public Service

## Daddy Beck Says Children Must Be Taught a Lesson

SAN FRANCISCO. (FP) — "A father disciplines his child. Father Green is disciplining the longshoremen."

This was the Vice Pres. Dave Beck of the Intl. Brotherhood of Teamsters characterized the bitter west coast jurisdictional struggle, as he came here from Seattle to take personal charge of the truckdrivers' end of the fight. He said there would be "no compromises."

Beck rejected anew proposals of Harry Bridges, west coast longshore C.I.O. chief, for a labor board poll to determine what union the disputed warehousemen want to be long to. His refusal came to be long to the San Francisco Labor Council finally ousted the Intl. Longshoremen and Warehousemen's Union, winning 15,000 members from that body.

Beck said he was "not interested in any vote—we are interested only in observance of A. F. of L. law, and the federation has given the teamsters jurisdiction over the warehousemen. This situation is a concern of the labor board at all. Bridges accused the teamsters' chief of "openly defying the Wagner act. The warehousemen chase their own union. The choice is protected by U. S. law."

At a meeting held by Wenatchee growers and packing company heads this "labor" organizer opened up his campaign with the declaration that the C.I.O. would not be up the industry up, despite the growers in any way. He let it be known, in a way of course, that all he was after was the consent of the bosses to collect the five backs from the working men and women who will live beyond the territory to harvest the fruit crop.

It seems, however, that the growers intend to do their own labor. Wenatchee said, the I.W.W. will be on the job and it won't open up a campaign with a conciliatory war. — Dr. Norman Bethune, famous Canadian surgeon.

## Still No Raise in Sight for Rails

CHICAGO, Ill. — Dr. William Levermore, chairman of the national railroad board, who has been trying to find a way to satisfy both the railroad operating brotherhoods and the railroad companies on the demand of the former for a 10 per cent increase in wages, held another conference with the representatives of all railroads and the five brotherhoods involved.

It seems that the next step in the long process of telling the workers that they can't have a raise is to get a federal fact-finding board on the job.

The brotherhood members voted a long time ago in a strike if they weren't given the raise. They are waiting for their officials to give the word.

But Carnegie advertised that the Ford Motor Co. is giving out copies of How to Win Friends and Influence People showing its employees, in the service department, going in for new styles in influencing?

For the last three weeks the Ford handcarriers have been making the rounds with stop-watches and scratch pads. Very systematically all jobs on production are timed to get the speed at which the machine operates and the speed at which the operator can take care of it. Then the "board of strategy" can study the tabulations and figure out plant production over a period of hours, days, weeks, etc., of parts or complete units. The machinery is NEVER slowed down.

The whole operation, as a Ford apologist commented and summed up briefly is: "The machine never speeds up the operator, but merely sets a pace for the operator to follow." In his latter part of his article he stated: "Many times, however, the operators had deliberately slowed down and even stopped beating the machine, resulting in decreased production."

That seems to show the necessity of man power even though the machinery of production is efficient and simple to operate.

The handcarriers cope laborers with the idea that all employees are hired by Man O'War, up the machines are stopped up—and the employees step with them, or else.

## CAPITALISTS OF ALL COUNTRIES CONCUR IN MOVES TO ESTABLISH FASCISM THROUGHOUT WORLD

### Marine Transport Workers Notice

Every member of the Marine Transport Workers I. U. No. 618 of the I.W.W. is urgently requested to get in touch with the Chairman of the G.O.C. immediately, and supply him with his signature, preferably a prominent one.

W. O'Connor, G.O.C. Chairman, Box 600, City Hall Bldg., New York City.

## Slow Down Tactic Gets Quick Raise

WATSONVILLE, Calif. — Cold Storage plant slaves in this old reactionary town tried out a Webby tactic recently that got them a ten cent an hour increase in wages and a general improvement in the job.

The slaves had been getting a good deal of I.W.W. literature and a delegate had found a few up, so when they got talking about affixing a little boost in pay, they did more than just talk about it but went right to the boss and made their wishes known.

When the boss said, "nothing doing," they went back to work but showed down operations to such an extent that after one day the boss changed his mind and raised the wages from 40 to 50 cents an hour.

It is hoped that all the slaves in Watsonville will profit by the example set and line up the I.W.W. for all the good things of life.

"The birds have their nests. The birds have their nests. And American slaves have their nests. In 1900, of acquiring a low-cost apartment from the Real Estate Administration."

Laws are like cobwebs, which may catch small flies, but let wasps and hornets break through.—Jonathan Swift.

There is only one thing certain and that is the uncertainty of having a job on the next day.

### "Atrocities" Not Bad While Profits Are Not in Danger

#### ALL FASCISTS AT HEART

The war in China, which could be terminated in one day by the value of the "democratic" nations if they, in turn, continue to reap its fruit, is a harvest of death, starvation and disease.

"Like a sword," says Federated Press, "the Japanese are operating from central positions and flanking from behind foreign battalions on which the Chinese do not fire. Thus the Japanese military are leaving heavily upon the warring British and American policy to enable them to wage war on China with a minimum expenditure of men and resources. A quick decisive war is the only kind they can afford."

The "democratic" nations have been especially valuable to the Japanese, who have not hesitated to utilize them for their fullest advantage. When the Japanese gambled Helsinki pulled up to within 500 yards of the U.S.S. Augusta and opened fire upon Pointing, it was not the necessities of the situation which impelled this action.

Any one of the Japanese gambles and errors in the river and the Chinese lines started there. They in coming to the aid of the American battleship, the Japanese commander believed on the position of the "neutral" battleship. He had no doubt would not return the fire in that direction.

"In fact, the entire strategy of the Japanese, as developed around Shanghai, has used this pretext of 'neutrality,' which is impossible to enforce the American and British forces as a cover for their maneuvers. Already America has paid for its policy of inaction with the death of one sailor and the wounding of 18 others by a shell which could have come only from Japanese ships from the harbor. Of more than 1000 Japanese soldiers the head of the Japanese navy and the Japanese government. The Japanese navy deny and the 'neutral' committee, for political reasons, may fail to place responsibility, but the frightful slaughter (and the loss of Chinese and foreign, within the settlement, continue."

(Continued on page 4)

## They're Picking Spuds in Idaho

REXBURG, Idaho. — The potato harvest is on in this section, regularly known far and wide as the Shoshone Valley, with John Peterson paying three to four cents a ton for the crop. The potatoes are the advertised rate and that's what the worker is promised when he goes out on the job. But they John is handing the workers a large union, which the yearling of the regulation potato basket and the place is getting a good many extra pounds into the supposed-to-be 100 pound sack.

The living conditions of the Idaho workers are as bad as they ever have been. Many of them live in shacks in box cars from which they emerge half frozen before daylight in the morning to cook their meagre meals in the kitchen before heading off for the fields with a dry bone in their pockets for noon-day lunch.

There is no harder work than picking spuds and when it is made harder by long hours, overworked baskets and sub-human living conditions, it is making hell out of hell. Under such conditions it is only the shortage of the season that keeps the Idahonian worker from killing himself.

Let's have an action and organization to get an end to such exploitation.

## Modern Luddites

The Luddites, who in the early years of the 19th century tried to save their jobs by destroying newly introduced machinery, have their counterpart in the present.

Recently at Gillespie, Ill. representatives of the United Mine Workers of America, Lewis's head, got together with its mortal enemy, the Progressive Miners of America, and hatched out some sort of scheme to stop the further mechanization of coal mining as a means to combat increase in unemployment. To complete the picture, the Workers Alliance, communist dominated, joined in with the other two reactionary groups to promote this worthy cause. The details of this particular back to the ocker scheme are not known.

The I. W. W. is not opposed to the introduction of new machinery in industry. New machines, new means of production, are powerful levers in forcing economic and social changes, and change is what we want. It's up to an intelligently organized working class to see that technical changes result in social betterment and to resist such changes as a sure sign of reaction.

Small shop-storing capitalist concerns usually are opposed to advance in the technique of production because new machines often cost more than they can afford to pay and their introduction in industry places them at a disadvantage alongside their more powerful competitors. At times large capitalists also oppose new machinery because the introduction of some of these would force the scrapping of enormous numbers of older machines which still are paid for years of service.

Capitalists are especially reluctant to invest in new equipment when labor is plentiful and cheap. They can't see the logic of labor-saving machinery when labor costs so little that, from their point of view, it isn't worth saving. But labor never has a valid reason for opposing new machinery so long as its operation is not dangerous to the life and health of the workers. That a greater degree of mechanization will cause more unemployment need not frighten any intelligent worker. Every child should know the answer to this problem. It is to put the control of the machinery of production into the hands of the working class which, even if it were as ignorant and helpless as labor leaders and capitalists seem to think it is, will not be so foolish as to starve to death because its factories and fields produce too much.

## "Life's Change the Game"

When a man is playing a game at which he finds himself at a disadvantage, he is very apt to turn to a new game in which he feels more at home. In the same way, when a man is in a bad situation, he will change the game. The advantage will be on his side. Everybody plays with the intention of winning.

In the contest between capital and labor which, by the way, is a war and not merely a game, the workers have always made their best showing on the economic field. In fact, that's the only field on which they have accomplished anything worth mentioning. Workers' activities on the picket line, in job action, in union discussion of job economics, have ever been fruitful in good results, in achievements satisfying to workers' desires.

On the other hand, long experience has taught the capitalist class that it is best to fight on the economic field. It is here that the wage workers on their own chosen ground. Nearly every one of the major corporations has found itself at one time or another at considerable disadvantage, in spite of its wealth, when confronted by an aroused, militant, and united group of employees bent on acting directly in their own behalf to get the things they want.

No wonder then that the capitalists are always diligently promoting plans to wean the workers away from economic direct action. They want to change the game. They have been rather successful at it too. They have caused to be set up other machinery for handling differences between capital and labor.

Recently a whole flock of disputes have been passed on to the federal labor board for adjustment, or to special mediation committees, and even to the regular courts. It is no consolation that some of the decisions handed down have

"Madam is having a nervous breakdown. We just lost the dog show."

been favorable to the workers. The outstanding fact is that employers are trying to coax the workers away from the habit of using the weapons that are best adapted to the workers' hands.

Employers don't want workers on the picket line or in union councils formulating their own demands and fighting for them. They want the fundamental questions of bread and butter, working hours and conditions, job control, converted into lawyers' abstractions to be wrangled about by evasive, well-fuf, "representatives." The bosses' ideal of a future America is one in which the workers have lost the habit of direct action and where they have forgotten how to strike.

There are plenty of leaders claiming to be on the workers' side, but who are in reality the servants of the capitalists, trying their best to realize the bosses' ideal.

The I. W. W. guards against any capping of the "wholesome power of the working class by insisting that workers shall never give up their right of independent direct action, and what is just as important, the I. W. W. insists that the power to act independently must be exercised daily in the struggle against the employing class because this is a power that becomes stronger with use and tends to wither and shrink when left idle. The class war is on the economic field. That's the place to organize and develop workers strength.

## Imperialism

Senator Nye of North Dakota recently declared in a radio interview, "If we face the choice of profit or peace, the nation will answer—must answer—We choose peace!" (Quoting Roosevelt's 1936 reelection speech.)

Though it all sounds very nice we know that whatever we may choose, the masters of this country will take their stand for profit every time. If we stay out of the Sino-Japan affair it is because that undisciplined war means plenty of profit as it is, from goods furnished both sides. As soon as the outcome appears to threaten seriously the prospect of future profits the American business propaganda machine will start grinding out reasons why we should jump into it.

THE PREAMBLE  
OF THE INDUSTRIAL WORKERS OF THE WORLD

The working class and the employing class have nothing in common. There can be no peace so long as hunger and want are found among millions of working people and the few who make up the employing class, have all the good things of life.

Between these two classes a struggle must go on until the workers of the world organize in a class, take possession of the earth and the machinery of production, and abolish the wage system.

We hold that the centering of management of the industries into fewer and fewer hands makes the trade unioning class. The trade union fosters a state of affairs which allows a few workers to be pitted against the millions of workers in the same industry, thereby helping defeat the workers' cause. Moreover, the trade union and the employing class to maintain the workers into the belief that the working class have interests in common with their employers.

These conditions can be changed and the interest of the working class upheld only by an organization formed in all industries for the purpose of uniting the workers in all industries. It is the duty of the workers to organize in a class, take possession of the earth and the machinery of production, and abolish the wage system.

We hold that the centering of management of the industries into fewer and fewer hands makes the trade unioning class. The trade union fosters a state of affairs which allows a few workers to be pitted against the millions of workers in the same industry, thereby helping defeat the workers' cause. Moreover, the trade union and the employing class to maintain the workers into the belief that the working class have interests in common with their employers.

## NORTHAMPTON BRANCH

On and after October 4 the address of the Northampton branch of I. W. W. No. 110 will be P.O. Box 100, Church St. Annex, New York City, N. Y.

## I. W. W. NO. 110 CONVENTION

The annual Convention of Agricultural Workers Industrial Union No. 110 of the I. W. W. will convene at Chambers, Washington, September 28, 1937. This will be a mass convention. Chester Zook, G.O.C. Chairman.

## RESOLUTIONS

Any member having objections to the I. W. W. No. 110 Convention, and who is unable to attend, should send them to Chester Zook, Box 100, Spokane, Wash.

## BALLOT COMMITTEE REPORT

We the undersigned ballot committee have tabulated the General Recruiting Union ballots on whether the GRI convention should be postponed, and wish to report that the question carried. Therefore, there will be no GRI convention this year.

—Ballot Committee: John Neff, Tolson, Wash. C. C. Goldberg.

## I. W. W. NO. 110, NOMINEES

The list of nominees sent to the Industrial Worker and published in the last issue is not correct. The correct list, sent in by Chairman of I. W. W. No. 110, Martin O'Connell, follows:

## G.O.C. Nominees

John J. Bagley, J. P. Chubb, J. P. Wajnarowski, George Ring, Joe Dunn, Frank Salasewicz, E. P. Newton, William Patton, Max Kovich, H. C. Colburn, A. R. Childs, Phil Leonard, Fred Hanson, Jim Johnson, C. H. Houghton, A. Martin, Bert Barnes.

## G.E.B. Nominees and Alternates

Stanley Skasky, Walter Dempsey, Louis Percy, Max Kovich, E. P. Newton, Wilcox Fox, William Patton, Isaac Barnes, Frank Russell, A. Caporaso, Fred Hanson.

All members should have their names on the list of members in the list of the chairman of the G.O.C. in November 1.

## PIERCE WORKERS GIVE LIBERAL COLLECTION

The collection taken up at James Whelan, on the morning of September 23rd, 4th, and 7th, follows: 100,000, who is confined in the the hospital, amounted to \$12.75. We wish to thank all fellow workers and friends who gave their money in a timely manner. James Whelan.

## CANADIAN ADMINISTRATION

In order to assist in organization work in the Sudbury District it has been decided to transfer the Headquarters of the Canadian Admin. to that City.

Local further notice all mail intended for this Office should be addressed to 28 Alder A. A. Sudbury, Ont. Joe Poslin, Secretary.

## Nazi Bread Causes Epidemic of Cols

DRESDEN, Germany.—If you have to eat Goering's "bread" bread, don't drink any water afterward! The entire staff of life, a Nazi, is made of all sorts of inferior grains. The entire staff has caused a raging epidemic of colic which made it necessary for schools here to suspend classes. The health department sent out warnings about avoiding water while eating the bread.

No great thing is created suddenly, or any more than a bunch of grapes, or a fly. If you tell me that you desire a fly, I answer you that there must be first, let it first blossom, then bear fruit, then ripen.—Epictetus.

A man accustomed to work is equal to any achievement he resolves upon.—Campbell.

## FOREIGN FASCISM IS WEAK IN U. S.

One of the essentials and most striking manifestations of fascism is its racialistic character. It is hardly appropriate for us to speak of the dangers of Italian fascism in Germany, for, as some writers are beginning to tell us, of British fascism.

See the Italian brand among the people here of Italian descent has been a force to be reckoned with for many years. At first the opposition to Mussolini was widespread, and even the press of all kinds put on the anti-fascist during the years of the 1920s.

But it seems that the loyalty to fascism of many of those who have given lip service is questionable. At a meeting to fight Fascism here a few days ago, the speaker on a transatlantic outlook, the speaker was perfect, and the audience promising this meeting presumably sent their best efforts to the fight.

It is a pity that the attendance was quite small compared with other events which have been held in the last few years.

Reports of the success of the Italian soldiers in the civil war in Spain, and in the famous Ethiopian territory in Africa can be taken in mean that the influence of Italian fascism in other countries has reached its peak and is now declining.

German nation came on the scene late and has made too many powerful enemies here to be taken seriously. Any real influence it may have here is through the German government and its representatives in this country. A daily here which has lately made extended investigations of this movement states:

A point of the Nazi organization here in short time ago attracted some 100, a sign of the fact that the leader of the party in the U. S. A. was the principal speaker.

But our own brand might be any other story.—Albert Hanson.

It might be argued that if labor wants fair leaders they will be late to the barbers and the parasite will have the wine all drunk up. But I'm arguing that if we don't wait for them they'll get lost and stray, maybe into the enemy's camp.

It's a question whether it is good policy for labor to carry its leaders, or put them on horseback, because leaders cannot sleep except on downy cushions and labor many times

It might be argued that if labor wants fair leaders they will be late to the barbers and the parasite will have the wine all drunk up. But I'm arguing that if we don't wait for them they'll get lost and stray, maybe into the enemy's camp.

## A. F. of L. and C. I. O. have gone to the town.

jurisdictional disputes throw the fight into the working class, brother against brother—the fight against the union is only left-sided and his complete eye is distorted. Strikers are merely "union" and this goes on every day.

While all continue with such time as a disinclination in the form of empty sympathy shall overland the working class.

Amalgamation does not grow solidarity; it is but a truce and the "bitter" lingo.

China invented gunpowder and that is permitted to use it.

A. F. of L. discovered industrialism and labor leaders are "try" to use it. (They're muddling with a box saw.)

Tough to be a thinking animal; brain grinding like a railroad train over a gravel crossing.

This reminds me: Willie Green Jan 1, Lewis have discovered "industrialism" again.

New York. A man in South street had another match just as if "was nothing. People are reckless!"

Maritime Commission is a name for a name. Difference of opinion is a name of size of jury. Personally I think that the jury and organize the power. Juris will sing sweetly enough if you have what it takes.

## On the road to economic security has to sleep under violence and hunger.

The I. W. W. is not habituated with industry, and primarily I think for this reason and to look for a family and parading him there as they do managers and attend for the maintenance of their racket.

So, labor, if you are going places, get a little solidarity in all it takes, and the I. W. W. is at the move.

Marxists are in the support for the time being, and it's for that reason I make the point: Leadership is for this reason and to look for a family and parading him there as they do managers and attend for the maintenance of their racket.

So, labor, if you are going places, get a little solidarity in all it takes, and the I. W. W. is at the move.

## In Warrenton Lock in Washington Case

ARMEDGE, Pa. (PP). The plant closed at the National Electric Products Co. here, which remained 700 employees by the 24th. The National Electric Workers (A.F.L.) and 674 for the United Electrical and Radio Workers (C.I.O.), had tied a few more knots into an already tangled situation, including not only jurisdiction but the power at various governmental bodies.

Final decision by the labor board on the outcome of the suit would be the fate, at Washington, of 135 electrical bulbs each by maintenance workers and clerks. Consequently they would affect the whole result.

While the A. F. of L. union moved for a federal court order to restrain the labor board from interfering with its closed shop agreement and warned employees with C. I. O. affiliations to drop them promptly, C. I. O. spokesmen claimed that company pressure had been exerted just prior to the election in favor of the A. F. of L. The contract was originally signed during a C. I. O. strike in the plant.

The J. R. K. W., angered by the labor board's action in voiding the contract, sending the labor board to its jurisdiction "to test the entire case from start to finish," regardless of the labor board's final decision. Otherwise, though, the case might go to the U. S. Supreme Court.

## Discuss Merits Of Twin Union Racket

Groom, Murray, and Howard engaged in verbal battles in session of International Typographical Union.

LOUISVILLE, Ky. The latest convulsion of the International Typographical union in session here is favored with unusual publicity by the "St. American" local, a leading local newspaper, for the support of this organization grows hotter and hotter.

Mr. Groom, who presented the A. F. of L. side of the argument, took several shots at the president of the typographical union, Chas. P. Howard. Howard while holding the highest official position in his union which is still affiliated with the A. F. of L. is also the president of the C. I. O. O'Connell to some of Groom's criticism he said: "It has never been suggested by any responsible officer of the I. T. U. that the organization withdrew from the A. F. of L." Mr. C. I. O. organization withdrew, he said; they were suspended.

Mr. Groom to the convention Green is said to have offered to distribute some of the membership of the American Newspaper Guild (now C. I. O.) in various printing trades unions. Apparently this promise was made without consulting any of the union's executives.

Philip Murray of the Steel Workers Organizing Committee and vice-president of the United Mine Workers of America presented the C. I. O. side of the argument. He was warmly received by the delegates. He especially commended the A. F. of L. for "its lack of policy toward the organization of the unorganized American workers."

Inter. President of the Printing Pressmen's union, and U. S. Senator from Tennessee, seems to be laying low; he did state in answer to questions that his union would continue, in some instances, to employ newspaper hand and carriers, but had no intention of talking in clerical, office, and advertising workers.

The War on Another Front

Thom, independent organizer of the American Federation of Government Employees, also A. F. of L., was thrown into newspaper at their Philadelphia, conference when a delegate representing the U. S. Federation section got up and made a plea for unionization.

He said in part:

"The federal employees now have 70,000 members in their union; our organization has 30,000 and a third has 15,000. It is wrong for the government employees to have three organizations. We need one. Labor must unite."

By the time this infatigable speaker had finished his speech he had been so completely confident but when he addressed to the one central A. F. of L. per capita, announced to Chas. P. D. the speaker broke loose for the night, shouting to the president of the union by making remarks concerning delegates only as to violating the conditions. Finally the chair ruled, the discussion closed and the speaker was ejected.

# CLEVELAND

## 440 NOTES

When the bullets, were opened from the various shops at the last 100 shooting, it was found that 440 bullets had been devoted to the shooting.

He took off his shirt and showed the marks of the bullets on his chest.

We've busy days promoting the union picture "Perry Over Spain"

Every member should see this thrilling historical account in talking pictures (English version) of the fight in Spain for the last eighteen months. Bring your friends along to see this fight of union men and women, giving their lives in order that socialism and democracy shall not be destroyed in Spain.

It's in the ballroom, Public Auditorium, Friday, September 24. Ten shows, 7 and 9 p.m. Adults 40 cents; children 15 cents. Unless there is a very heavy crowd, some of the tickets can be accepted at 5 and 6 o'clock tickets can be accepted at 5 p.m.

Some handling advance party at 5 p.m. and 6 p.m. on account of the night of the 24th, for we have to settle our business with this union picture at that time too.

Many thanks to those outside our organization who have aided in making a success of the benefit presentation of this picture—the MERA in particular, and also the various CIO and AFL unions, and the Socialist Party.

We had some motion pictures last Tuesday at the American Store meeting. "Smiley" Serenak took them, and he didn't seem to mind the role of "smiley" Serenak at all. After the picture of our fellow workers taken away by the movie camera, we're inclined to believe that this must be the answer to Bobby Burns' plea:

"O wad some power the githers se to me  
To see sunnill as affter us no!"

Too bad that man never there to see themselves in the movie!

Fellow Worker Serenak also showed his favorite film of a mugshot of a mugshot. Some of the boys there seemed to think that the mugshot of the fellow worker was a picture of our fellow workers taken away by the movie camera, and that would be a bit more like those fellows.

At Independent Register a new gain achieved for the union is the arrangement that nobody will come in later than half a day. Getting up in the morning and traveling to work for less time than that is a nuisance. The boys there are also making considerable improvements in sanitary conditions.

At Ohio Forestry new hours go into effect this week in an effort to get those eight hour shifts packed into 24 hours. The committee felt like the boys there were not getting their share of the work, so they decided to make the hours a very good spot for fixing up a lunch room for themselves, provided they can get it fixed up right.

Many inquiries come into the office asking where Frank and Ted Cohen are. Ted is over in Milwaukee helping make 100, 440 a bigger and better organization, and Frank is up in Detroit.

At the various shop branch meetings, attention is being called to the case of Mike Lindsay, framed victim of the National Beer strike. This good union man is in Columbus working for washing machines here. It looks as though we will have to appeal the case to the Supreme Court at the United States again, and to serve the larger purpose of the fight against the case in the Supreme Court, we are asking our members to plan a 50 cent voluntary Mike Lindsay account in their banks. They may disagree, but we will not let them for the sake of waiting for them to ask you to get in.

At the United Rubber Workers, there was a meeting with making remarks concerning delegates only as to violating the conditions. Finally the chair ruled, the discussion closed and the speaker was ejected.

# LOOKING THE WORLD OVER

International Scope of Contingency to Spain

The British Isles

England and France have sent about 100,000 troops into the Spanish zone, in accordance with the agreement in London concerning aid to the Republic.

Ten thousand troops from London to Scotland in 1936. The British Isles have sent about 100,000 troops into the Spanish zone, in accordance with the agreement in London concerning aid to the Republic.

A cool military strike. Chas. P. D. was sent at the last moment when non-union men were known to be the foe.

The government has called a meeting of army, navy, and air force, and has called a meeting of the Royal Air Force. Over 100,000 troops have been sent to Spain, in accordance with the agreement in London concerning aid to the Republic.

Hitler and Mussolini will meet in Berlin. Hitler will make a speech, and Mussolini will make a speech. They will discuss the situation in Spain, and the role of the Axis powers.
